

EXPERT SPEAKER FINDER

Helping
Universities
Connect with
Industry Experts

Introduction

The Expert Speaker Finder is an innovative platform designed to help universities find and invite expert speakers for seminars and workshops. Students can suggest potential speakers, and university admins can review submissions to select the most suitable speakers.

This tool facilitates collaboration between students and university administration, encouraging a wider variety of guest speakers.

Why Expert Speakers Matter

Inviting expert speakers provides several benefits to universities:

- 1. Expanding students' exposure to real-world expertise.**
- 2. Networking opportunities with industry professionals.**
- 3. Bridging the gap between academia and the professional world.**

Use Cases

- 1. Academic Seminars:** Suggest and select guest lecturers in fields like cybersecurity, AI, and biotech.
- 2. Career Talks:** Invite professionals to share insights on specific industries and career paths.
- 3. Special Workshops:** Organize skill-building sessions led by experienced professionals (e.g., entrepreneurship, digital marketing).

Application in Universities

Many top-tier universities use similar platforms to improve seminar quality and variety:

- MIT's Industry Liaison Program (ILP)**
- Stanford's Innovation Lab Talks**
- Oxford University's Expert Lectures**

By using the Expert Speaker Finder, your university can enhance its outreach and better match students' interests.

Key Website Features

- 1. Speaker Suggestion Form: Simple, user-friendly form for students to recommend speakers.**
- 2. Admin Panel: Admins can manage and review submissions with ease.**
- 3. Mobile-Responsive Design: Fully optimized for both desktop and mobile users.**

Speaker Suggestion Form

The form captures all necessary details for evaluating speaker submissions. Form fields include:

- Speaker Name
- Field of Expertise
- Professional Background
- Why the speaker is recommended for a seminar.

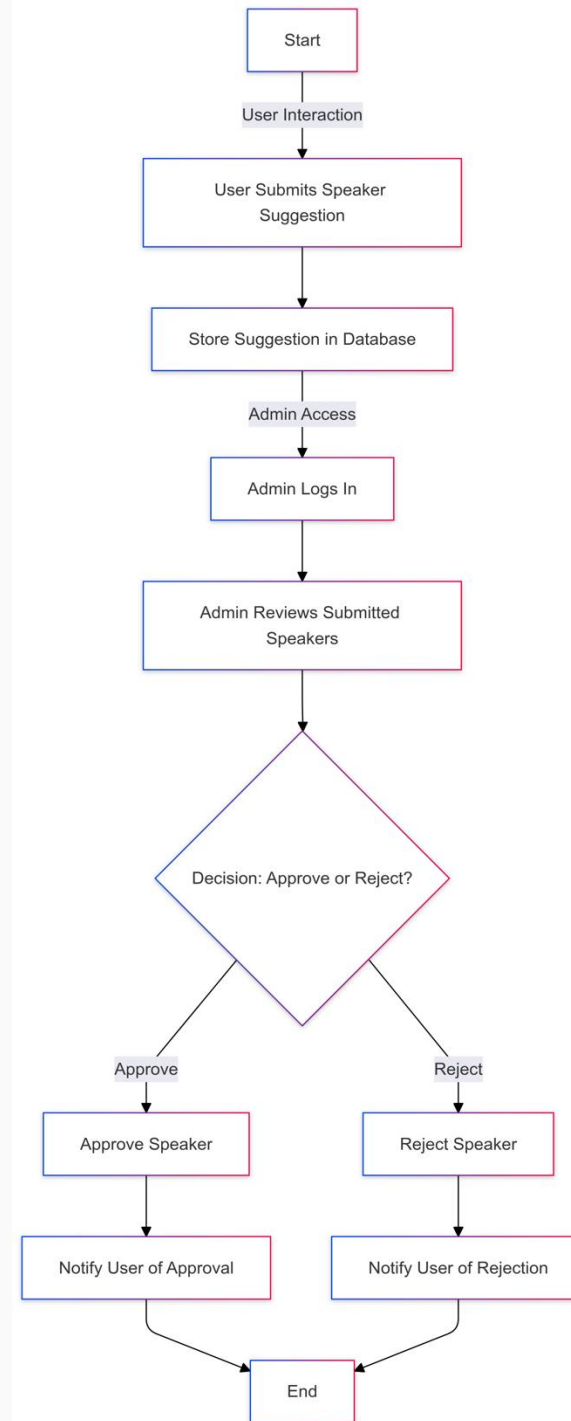

Admin Dashboard

Admins can view and filter all speaker submissions. Features include:

- View Submission Details:** See full information about each suggested speaker.
- Accept or Reject Submissions:** Admins can decide which speakers are suitable for the event.

Feature	Description
View Submissions	Displays details about the suggested speakers.
Accept/Reject	Admins approve or decline the speaker suggestions.
